

# Thermawrap®

Maintaining normothermia before, during and after surgery using a simple insulation principle, avoiding the expense, inconvenience and risk of using powered equipment.

Head Cover

Legging

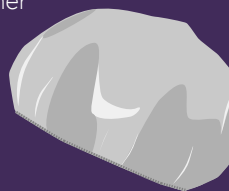

Blanket

The Thermawrap® range includes head covers, leggings and blankets. It is simple to use and practical for all patients, while offering a cost-effective alternative to conductive and forced air warming methods.

**Non-Conductive** and radiolucent, making it suitable for all electro-surgery/ diathermy and radiographic techniques

**Lightweight** and flexible, ensuring it can be draped on all parts of the body

**Tight Fitting** to skin surface, making Thermawrap® more effective than other warming systems when used in specific patient positioning e.g. lateral and stirrups positions

Code	Description	Box Quantity
AMTW1000	Adult Head Cover	30
AMTW1100	Legging	40
AMTW1300	Blanket 1200mm x 1200mm (4'x4')	30
