

CALLISTO LARYNGOSCOPE RANGE

TIMESCO

Callisto is the U.K's No.1 single-use laryngoscope system. It has been designed to offer a true low cost alternative to reusable blades and handles with exceptional specifications to reduce cross infection, cost, maintenance and processing costs.

10 IMPORTANT REASONS TO USE SINGLE-USE

REDUCE CROSS INFECTION

Single-use products can reduce the risk of cross contamination to the patient, over reusable products that may not be effectively cleaned.

COST SAVINGS

Eliminates the cost of reprocessing products.

BRIGHT LIGHT, EVERY TIME

On average, 3x brighter than recommended in the ISO 7376 standard.

STRENGTH

The Callisto single-use laryngoscope system exceeds the 15kg strength test recommended in the ISO 7376 standard.

RECYCLING OPTIONS

The range can be recycled to help reduce the impact on the environment.

READY TO USE

Simply open, use & dispose.

LOW CHEMICAL USE

There are fewer chemicals used due to eliminating the reprocessing process.

NO WAITING

No need to wait for products to be received after the cleaning process.

SAVE TIME

No time spent transporting, cleaning & reassembling products.

PRELOADED BATTERIES

Timesco's Callisto handles contain new small button cell batteries, with a 5 year shelflife, that are easy to dispose of and mercury free.

RANGE INCLUDES

The Timesco Callisto single-use sets have exceptional specifications to reduce cross infection at a cost low enough to justify single-use. The sets contain single-use blades and handles (preloaded with batteries) providing a ready to use disposable system to increase time efficiency and convenience.

Rounded blade tip replicates the reusbale Sirius fibre optic blade.

Highly polished acrylic core for maximum illumination.

Rigid, low profile, metal spatula looks and replicates a reusable Sirius fibre optic blade.

Single-use logo clearly marked on the back of the blade.

Green ISO 7376 fitting plastic block compatible with green fitting single-use and reusable handles.

‘No Touch’ block prevents the tip of the blade coming into contact with the handle

Clearly stamped LOT number for tracability.

2 metal ball bearings for secure fitting.

Product description clearly marked on the back of the blade.

Supplied in boxes of 10.

Introducing 2 new sizes to the Callisto preloaded single-use laryngoscope handle range.

A true low cost alternative to reusable systems, the handles reduce the risk of cross infection & eliminate the cost of reprocessing. They provide exceptional strength, bright illumination from a powerful LED bulb and are made from a low volume plastic construction, producing less waste for a greener system.

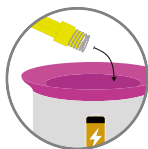

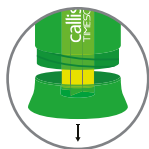

Metal hook bar offering exceptional strength for a single-use handle.

All the handles are ISO 7376 fitting and compatible with green fitting blades.

New lower volume plastic clam shell construction reduces plastic waste and cost of disposal, whilst increasing handle strength.

Preloaded with alkaline button cell batteries that have a 5 year shelflife. Easily dispose of the batteries in 3 quick and easy steps.

1. Twist. 2. Drop. 3. Dispose.

New sizes available

Powerful, bright LED bulb for excellent illumination with an average minimum output of 36,000 lux for the V2 handle or 11,000 lux for the Mini handle when measured 2cm from the bulb.

We've expanded the Callisto handle range to encompass 3 different sizes, providing clinicians with a selection of handles to meet their specific requirements.

Clearly marked with product code, CE mark and single-use symbol on the base.
